LOST SISTERS FOUND—A CHILD STOLEN TWENTY-FIVE YEARS AGO.— The Galveston Bulletin says: One of the strangest incidents of domestic life that ever came under our notice, occurred on Tuesday of the present week. The story is thus told: Mrs. Bowen is a widow of forty-one years old, whose husband died last year with the yellow fever. Thirty years ago, being then only eleven years old, and a resident of Comanche County, Alabama, her eldest sister married and removed to another portion of the same State.

of this marriage was a daughter, which was stolen from school, and seems to have been reared in almost total ignorance of her family. All that we know of the child is that she is now a lady of twenty-nine years and resides in her native State. About a year since, Judge Dean, of Batts, Dean & Watson, received a letter from this lady, saying that she be-lieved her aunt resided in Galveston, and that she desired to know of her whereabouts. After inquiring, he found the missing aunt to be Mrs. Bowen. The ladies were put in communication, and the one in Alabama assured that her mother, from whom she had been stolen was dead

whom she had been stolen, was dead. Thus matters rested until last Tuesday, when a Mrs. Martin, at the suggestion of a mutual friend, was introduced to and visited Mrs. Bowen. During the conversation that followed, it became plain that they were sisters, and that Mrs. Martin was the mother of the Alabama lady who was mother of the Alabama lady who was stolen twenty-five years since. Thus the two met and were recognized, after an absence of thirty years, with never a strawberry mark on the left arm of either. One sister has been a resident of Galveston fourteen years and the other eight. Both are happy in the meeting and in the happy in the meeting, and in the prospect of soon seeing the daughter of one and the nicce of the other.

tributaries of the Limpopo, which finds its way to the sea upon the Eastern coast of Africa, in the country of Mozambique. These gold regions are claimed to belong to Macen, chief of the Bamangwato nation. Alarmed at the threatened invasion of gold hunters, the chief addresses a plaintive note to the British authorities, saying that the apprehended invasion consists chiefly of British subjects, and appealing to the representatives of her sovereign tributaries of the Limpopo, which

The Transval Argus has an enthusiastic account of these mines. It alludes to a statement made a year ago by Herr Mauch, that it would ultimately be proved that the new African gold fields were richer than any in California or Australia. The Argus states that the specimens exhibited at the time of the penning of its editorial are so rich that a statement concerning them would be regarded as fabulous. The country of these rich deposits is said to be healthy and abounding in game—one hunter being able to supply thirty men with food.

B. L. BRYAN.

At a school at Wallsend, near Newcastle, Eugland, the master asked a class of boys the meaning of the word "appetite," when, after a short pause, one little boy said: "I know, sir. When I'm eaten' I'm appy, and when I'm done I'm tight."

A HUNDRED YEARS IN A RISON. -A certain housebreaker was condemned, in the latter part of the last century, in France, and under peculiar cir-cumstances, to a hundred years in the galleys, and strange to relate, this man recently made his appearance in his own native province, at the advanced age of 120 years, he being about twenty years of age when the sentence which condemned him to such a dreadful punishment was passed. It is difficult to conceive what the feeling must have been with which he returned, as soon as emancipated from the shackles which had enthralled him for a century, to breathe once more the cherished air of the scene of his infancy. Bourg, in the department of Ain, was his native home, but time had so changed man, time, everything. Not a rela-tion had he left. Not a single being could he hail in acquaintance; yet he was not without experiencing the homage and the respect the French pay old age. For himself, he had forgotten everything connected with his early youth; even all recollection of the payont is a superior of the payont in the latest and the payont is the payont in the p of the crime for which he had suffered was lost, or, if at all remembered, it was a dreary vision, confounded with a thousand other dreary visions of days long gone by. His family and connections, for several generations, all dead, himself a living proof of the clemency of Heaven and the severity of man, regretting, perhaps, the very irons which had been fu-This marriage was unhappy. The husband was unkind. The only child maliar to him, and half wishing himself again among the wretched and self again among the wretched and suffreing beings with whom his fate had been so long associated. Well might he be called the patriarch of burglars.—*Exchange*.

MARRIED WITHOUT GLOVES. - A few days since, a young gentleman and young lady appeared at the parsonage of an eminent clergyman of this city, for the purpose of having their respective destinies united in the holy bonds of matrimony. Every-thing being ready, the clergyman aforesaid was about to proceed with the ceremony, when the young lady discovered that she was minus the kid gloves so necessary on such occasions, whereupon she requested her affianced to hasten to a store and procure the indispensable kids, telling him to "be in a hurry or she might change her mind." The clergyman, witnesses and intended ibride waited some time for the return of the youth with the gloves; he didn't come.
They waited longer, and still he failed to put in an appearance. The matter at last being really serious and alarming, the clergyman took his hat and proceeded, post haste, in search of the truant lover, whom he found, after a diligent search and many inquiries, quietly seated on the veran-dah of the Park House, with his feet elevated on the back of a chair, and Gold in Africa.—The latest arrival by steamer, from Europe, brings additional news of gold discoveries in Southern Africa. Thes discoveries are in the country North of the British possessions. The suriferous rocks and sands are found upon the tributaries of the Limpone which very deliberately puffing a segar. On

Good.—We understand that the negroes of Beech Island, S. C., and its neighborhood, are calmly but confidently awaiting the division of lands, mules and other property now held by the whites. They understand the election of Grant to be equivalent to a horsested and nothing to lent to a homestead, and nothing to do for the rest of their natural lives. When their expectations are realized and the titles to the aforementioned of British subjects, and appealing to the representatives of her sovereign Majesty Queen Victoria to buy out the mines and relieve him of all trouble and responsibility on account of them.

The Transvaal Argus has an enthusiastic account of these mines. It alludes to a statement made a year truth will be sorrowfully, but stornly truth will be sorrowfully, but stornly truth will be sorrowfully but stornly. truth will be sorrowfully, but sternly realized.—Augusta Constitutionalist.

SPECIAL NOTICES.

UNIMPEACHABLE. - Indigestionthe most fruitful generator of disease, so common as not to be considered dangerous-slowly and surely saps the foundation of health; for, with impaired digestion, it is impossible for food to afford strength to the system. Dyspepsia invariably follows this disease, and dyspeptics owe all their sufferings to indigestion. Nervous and sick headache also spring from derangement of the digestive organs. Persons of sedentary habits frequently suffer from these evils, which are attended with a nervous irritability of temper, extremely unpleasant to others and a source of misery to themselves. HOSTETTER'S STOMACH BITTERS has been found the the aspect of the whole, that he recognized it only by the Church of Bron, which was the only thing which had undergone no alteration. He had triumphed over laws, bondage, safest and best means of removing all di-

soothes the excited brain, headache disappears under its potent charm and the patient rapidly regains health and strength by its restoring power. To the aged, as well as delicate ladies and children, it is admirably suited, as it possesses the quality of invigorating without excitement or re-action.

An immense amount of unimpeachable evidence can be produced to prove that Hostetter's Stomach Bitters is unequalled for its prompt and ever reliable action in alleviating and curing all dise ases of the stomach. Its superior excellence and consequent renown is readily accounted for, from the well-known fact that it is made under the personal supervision of the proprietors, in strict accordance with pharmaceutic science.

"MANHOOD."-Another New Medical Pamphlet from the pen of Dr. Curtis. The Medical Times says of this work: "This valuable treatise on the cause and cure of premature decline shows how health is impaired through secret abuses of youth and manhood, and how easily regained. It gives a clear synopsis of the impediments to marriage, the cause and effects of neryous debility, and the remedies therefor." A pocket edition of the above will be forwarded on receipt of 25 Cents, by addressing Dr. Curtis, No. 58 North Charles May 27 1y street, Baltimore, Md.

MR. EDITOR: Please announce Maj. JOHN ALEXANDER as a candidate for the office of Mayor of the city of Columbia. Maj. Alexander is a property-holder, and this is one of the great elementary doctrines of the Democratic party—that property-holders should be elected to office. The Democratic press has been opposed to the great majority of the members of the so-called Legislature of this State because they were non-propertyholders; therefore, the friends of Maj. Alexander propose his name, and know that he has friends enough to elect him if he will consent for his name to be used in the canvass. Maj. Alexander is the coming man, and will be certainly elected. No clique, composed of packed clubs, but one of the people's choice. Nov 1 VOX POPULI.
